**CourseLink**  
Get additional information about courses that fulfill a requirement.

My Degree contains a feature called CourseLink. Courses listed as options in the “Still Needed” portion of the audit are hyperlinks that will bring up information about the course like prerequisites, course fees, and course offerings.

To access CourseLink, select the course from the “Still Needed” list of a requirement. In the example below, the student selected CHE 008A.

A pop-up box, like the one below, appears over the audit with additional information about the course.

To close the pop-up box and return to a full screen view of the audit, close the box by selecting the “X” at the top right-hand corner of the box.
